

Geo Lawson

Kingston, C. W. 24 Sep. 1861.

My Dear Sir,

We feel truly thankful
for the kind and considerate manner
in wh. you have received our
application for plants. Please let
them be sent via the American
Express Company, by wh. means
they will reach us speedily without
suffering from drought or frost.

The Company have agencies in all
towns & villages, so I presume you
will have no difficulty in finding
where to send. I called at the
office here today, and asked
them to charge us reasonably.

If any good sets of Wright's Filices
not over 1, \$22.50

are left, have the producer to
send me one. Did he collect
Mosses? If so, please add
there. I have not seen either
Eatons' or Gisebachs' papers
to wh^{ch} you refer.

Please inform me to what
extent I shall be indebted
for Wrights' Filices &c, and
also add any charges to
wh^{ch} you may be put in
packing and transmitting
the plants to the Express Co.

With many thanks &
kind regards I am my dear Sir
Yours very truly
George Lindley
